Portfolio :
<https://abhirajsinghrajpoot.github.io/Wizards-Portfolio/>

Full-Stack Developer specializing in modern web development, authentication, and secure engineering practices. Experienced with React, Node.js, MongoDB, and cybersecurity tooling. Passionate about solving real-world problems using scalable development, automation, and AI-augmented engineering workflows.

Professional Experience

Web Development Intern

CodSoft, Remote

November 2025 - December 2025

Assisted in front-end development tasks using HTML, CSS & JavaScript while improving UI design and responsive layout skills. Learned professional workflow and enhanced practical web development experience.

Ethical Hacking Intern

iStudio, Remote

November 2025 - January 2026

Conducted reconnaissance and penetration testing using Kali Linux.

Analyzed vulnerabilities using Wireshark, Nmap, BurpSuite, and OWASP ZAP.

AI & Digital Skills Intern

AICTE x IBM SkillsBuild, Remote

November 2025 - December 2025

Completed guided AI learning modules and cloud-based technical practice tasks.

Participated in mentor-led sessions focused on industry workflows and skills.

Strengthened communication, teamwork, and digital literacy in a professional environment.

Education

Bachelor of Technology (B.Tech) in IoT, Cybersecurity & Blockchain August 2023 - Present

Global Nature Care Sangathan Group of Institutions at Jabalpur, Madhya Pradesh, India

Key Skills

React, JavaScript, HTML, CSS, Tailwind CSS, Node.js, Express.js, REST APIs, MongoDB, SQL, JWT Auth, OWASP, Git, GitHub, Postman, Docker (Basic), Linux Terminal, AWS Basics, Azure Fundamentals, Kali Linux, Wireshark, BurpSuite, Nmap -

Certifications

Tata – Cybersecurity Analyst

Mastercard – Cybersecurity Virtual Experience

Walmart – Advanced Software Engineering

AWS – Solutions Architect Simulation

Cisco – Introduction to Modern AI

Outskill x MoneyControl – Generative AI

Microsoft Azure Fundamentals

IBM – SQL & Relational Databases

Projects

Get Me A Chai — Donation Platform

August 2024 - October 2024

Built a secure authentication-based donation platform using React, Next.js, and MongoDB. Implemented login, donation tracking, responsive UI components, and database handling with a smooth user experience.

Tic-Tac-Toe Web Game

May 2024 - June 2024

Built a fully interactive web-based Tic-Tac-Toe game with game logic and win detection. Added reset feature and responsive layout for smooth user experience.

Portfolio Website

December 2024 - February 2025

HTML | CSS | JavaScript

Designed and deployed a personal portfolio showcasing skills, projects, and achievements. Optimized UI for mobile compatibility.
